long strip having a width of about 10 mm and a thickness of about 0.5 mm. The strip has a central portion 5 which is relatively thick and two side portions 6 which are relatively thin. The side portions 6 are curved so as to define a V-shaped notch 10a at the top edge of the strip 5. The strip 5 is supported by a support 11 which is positioned below the strip 5. A curved arrow 12 indicates the direction of movement of the strip 5.
